VIA Campus² PLUS

4K60 Simultaneous Wired and Wireless
Presentation & Collaboration Solution

| HDMI | Microphone - 3.5/6.5mm | Ethernet - RJ-45 | 4K/30 UHD

VIA Campus² PLUS is a simultaneous wired and wireless presentation and collaboration solution that makes it easier to get actual work done during meetings. VIA Campus² PLUS delivers all the outstanding features found in the VIA Campus² with the addition of an HDMI™ input for simple and seamless wired connectivity. With any laptop or mobile device, users can view, edit and comment on documents in real time and record sessions. Meeting participants can display or stream full uninterrupted HD video (up to 1080p60) from their device, and even play YouTube® videos in full frame rate. VIA Campus² PLUS can show up to six user screens on a single main display and 12 on two displays. Users can also view the main display on their own device. VIA Campus² PLUS features iOS mirroring for MacBook, iPad, and iPhone, as well as mirroring for Chromebook and Android (Lollipop OS 5.0 or newer). VIA Campus² PLUS supports 3rd party conferencing and office apps, such as Microsoft Office®, SkypeforBusiness®, GoToMeeting®, Teams®, and WebEx®. The solution can handle any size collaboration or meeting space and is ideal for training venues and classrooms

FEATURES

Easy and Effective Wireless Device Connectivity - Built-in Wifi enables user devices to connect directly to the VIA device without using a router or dongle. Or connect to your local network for enabling devices to connect via the corporate network while enabling a secondary network for your guests

4K@60 HDMI Wired Input - Enables hard-wiring your computer or other HDMI compatible device such as a camera, multimedia player or computer. Note: Does not support HDCP signals

60fps Streaming Multimedia - Share HD wireless video streaming (using the VIA app Multimedia feature)

One 4K@30 (RGB) HDMI output and one 4K@60 DisplayPort output

Remote Power Control - via a relay port

iOS, Android, Chromebook® and Miracast® Mirroring

Room Calendar Integration - Shows the room occupancy schedule on the main display

Internal Web Browser - Open any browser to display content

DHCP Support

Streaming Input for the Internal Media Player

Cloud-Based File Sharing - Drag and drop files to the internal VIA cloud storage (128GB)

Emergency Messages - Create instant alert messages for immediate push to the main display

Whiteboard Support

Control - Give a participant control over a presenter's PC for true collaboration

Chat - Send an instant message to another user

• iCloud®, OneDrive®, GoogleDrive®, Dropbox® Integration

View Main Display - View the main display on your own device

Third-Party App Support - Like Microsoft Office®, SkypeforBusiness®, GoToMeeting® and WebEx®

Icon Shortcuts - On the splash page for 3rd party applications

Integrated YouTube Player - Create playlists, share videos or drag and drop any YouTube clip to your VIA app for seamless video playback

Streaming Output - Stream all collaboration activity from the main display to any H.264 decoder

Recording - Record an entire VIA video and audio session to a local video file

Digital Signage - Display dynamic content on the main display during meeting downtime

Seamless VSM Integration - With VIA Site Management (VSM) software

Multilingual Support - Experience VIA in your language

Warranty - 3 years on hardware
