

DCNM-CBCON-I Connectors for solid core cable 50pcs

www.boschsecurity.com

BOSCH

Invented for life

- To be used in combination with DCNM-CBxx-I cable assemblies, DCNM-CB250-I and DCNM-CB250 installation cable

The connectors for solid core cable can be used with the 250 m (820.2 ft) system network installation cable (DCNM-CB250-I) to create your own cables, or with the DCNM-CBxx-I cable assemblies to create custom length cables. These connectors are only suited for DICENTIS solid core cables and not for stranded wire cables. The system cable toolkit (DCNM-CBTK) is used to connect the connectors.

Certifications and approvals

Region	Regulatory compliance/quality marks
