

## Bolide BE-DR-AD300 1-Ch Coaxial Converter for PTZ

|   |                                 |
|---|---------------------------------|
| Supply Voltage                            | DC 9V $\pm$ 20%                 |
| Power                                     | <1W                             |
| Weight                                    | 180 g                           |
| Receiving Controlling Mode                | RS485/RS422/Manchester/BI-PHASE |
| Receiving Baud Rate (RS485/RS232)         | 2400/4800/9600/19200 BPS        |
| Receiving Baud Rate (Manchester/BI-Phase) | 32KBPS                          |
| Transmitting Mode                         | Coaxial Video                   |
| Farthest Transmitting Distance            | 300m                            |
| Environmental Temperature                 | -10°C - +50°C                   |
| Dimensions                                | 143 x 67.5 x 34.5 (mm)          |
