HIGH-DEFINITION MULTIMEDIA INTERFACE

### AC-CXMF62-AUHD

6 INPUT, 2 OUTPUT MULTI-FORMAT  
CLASSROOM/CONFERENCE ROOM MATRIX  
VGA, HDBaseT, HDMI AND DISPLAYPORT INPUTS \ HDMI AND HDBASET OUTPUTS

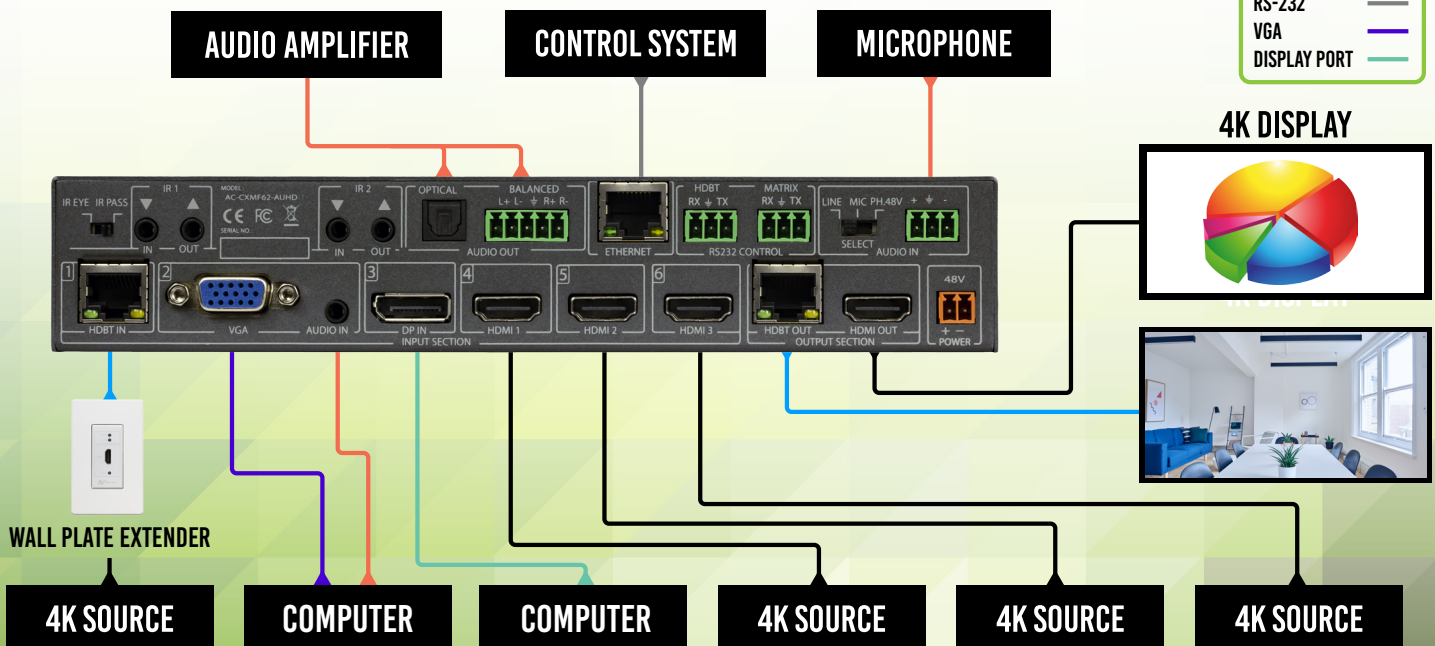

This multi-format video product from ConferX is a 6x2 matrix switcher with VGA, HDBaseT, HDMI, and DisplayPort video inputs and HDMI and HDBaseT outputs. Capable of handling 4K signals, this multi-format 6x2 is the perfect solution for the classroom, conference room, or huddle space. This 4K switcher can display any of the six sources through both the HDBaseT and HDMI output port. Each of these outputs are completely independent of each other allowing the user to show two sources at the same time. With additional audio inputs and outputs, working with a microphone or intercom system will not be a problem. When you need a stable solution for video distribution, look to the entire line of ConferX products. With an HDBaseT input, this switch works alongside any of the ConferX Wall Plate Transmitters. You can have USB-C, Mini DisplayPort, HDMI, or VGA inputs located up to 100 meters away from the AC-CXMF62-AUHD. This allows a teacher or presenter to use their laptop directly at the podium or presenters' station without having to connect anything to the matrix switcher. The AC-CXMF62-AUHD gives any end-user a simplified experience for sharing their ideas inside a classroom, conference room, or huddle space.
