

BG-CJ-RS**Serial PTZ Joystick Controller
(RS-232/422/485)**

This universal serial joystick controller is an excellent choice for users requiring simple, accurate, and reliable serial control for PTZ cameras. With support for VISCA, Pelco-P, and Pelco-D protocols, the BG-CJ-RS is compatible with most PTZ cameras on the market.

The high-quality joystick of the BG-CJ-RS provides accurate PTZ control for live events and video productions. The BG-CJ-RS can control up to 255 cameras and supports up to 255 camera presets. Fine tuning to the image is made easy with manual focus and iris settings.

FEATURES

- Store and recall up to 46 camera presets
- Control up to 255 cameras via Pelco-D/P
- Proven reliability of serial controls
- Manually control focus and iris (VISCA only), or speed
- 3D joystick with twist control for zoom
- Designed for Sony VISCA and PELCO-P/D compatible PTZ cameras
- Multiple communication modes: RS485, RS422, RS232
- Set the address code of cameras independently
- Short circuit and overcurrent protections
