

BG-CJ-IPRSPRO

Professional IP/RS232/422/485
Joystick Controller
(Available in silver)

The professional-grade BG-CJ-IPRSPRO network controller was designed to keep your production running smoothly and seamlessly. The 4D joystick, with eight direction movements, gives you full control over pan, tilt, and zoom, whether using the IP or serial control interface.

The user-friendly layout allows everyone from novices to experts to operate control for houses of worship, concerts, studio recordings, live productions, and events.

Instant Control at Your Fingertips

- 4D-joystick, with eight direction movements, gives you full control over pan, tilt, and zoom
- Store and recall up to 46 camera presets
- Four control modes for long distance PTZ camera control: two IP modes (IP VISCA, ONVIF) and two analog modes (RS422, RS232)

Synergetic Technologies & Connections

- IP control easily controls any compatible IP camera
- Control up to seven compatible IP cameras
- Control protocols: VISCA, SONY VISCA, PELCO P/D

Quality Construction and Detail

- Sturdy metal construction and high-durability buttons designed to provide years of trouble-free use
- Keypad layout allows easy operation with 7-channel camera shortcut keys and 3 rotary controls
- Integrated OLED display creates a simple setup menu to set and review settings
- Keypad dims without use and adjusts to ambient light

Specifications
