

DC136

4K Portable USB Document Camera

The Lumens® DC136 is one of the modern and easy-to-use USB document cameras that Lumens has created. It features a 1/3" 13MP SONY image sensor and larger than the A3 shooting area. Not only does the DC136 deliver vivid images, but it can also capture an extremely close-up view. The signature gooseneck design enables teachers to position the camera head in any direction and even a webcam view. The DC136 empowers teachers and students to share and learn in person or in online classes.

Key Features

- 4K 30 fps UHD
- Gooseneck design for 2-in-1 Solution
- Larger than A3 shooting area
- Extreme close-up photography
- USB plug and play

Key Feature Details

Unlock the Power of Distance Learning

The joint-free gooseneck design could capture every aspect of a teaching object, or begin a face-to-face video conference lecture.

Larger Than A3 Shooting Area

DC136 provides super wide coverage, let user never worry about the size of textbooks or extracurricular reading.

Embrace Images Details

Crystal clear visuals with rich three-dimensional vision.

Extreme Close-up Photography

Capture a close-up at a 2.4" (60 mm) distance and observe an object to view fine details.

Applicable to Major Software

One USB cable to power DC136 and connect with Zoom, Teams, OBS, and other distance learning software.

Ladibug™ 4K Software

Elevate audience engagement with live annotation, mask, spotlight, and recording functions.
