AC-IMPULSE / AC-IMPULSE-PLUS

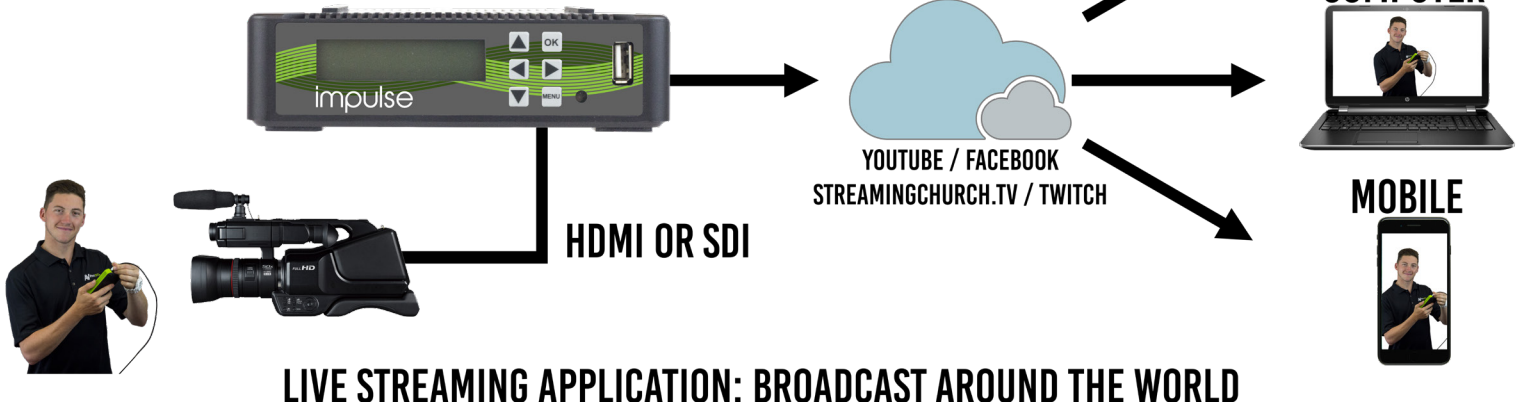

THIS COMPACT SINGLE-CHANNEL ENCODER CAN STREAM A VIDEO SIGNAL ON ANY SERVICE SUCH AS YOUTUBE, FACEBOOK, USTREAM, CHURCH STREAMING AND MORE. NOT ONLY ARE YOU ABLE TO STREAM A VIDEO SIGNAL, BUT IT GIVES YOU THE ABILITY TO RECORD DIRECTLY TO A SSD CARD AT THE SAME TIME. IMPLUSE COMES WITH AN HDMI INPUT AND A SDI INPUT, ALLOWING YOU TO USE A WIDE VERITY OF CAMERA'S OR SOURCES. WITH AVPRO EDGE'S IMPLUSE YOU CAN STREAM BEAUTIFUL 1080P SIGNALS TO ANYWHERE IN THE WORLD.

HOW IT WORKS:

1. Connect a camera (or any source) to the Impulse
2. Connect to the IP control system via any browser
3. Select your streaming method (your own website, Facebook, Youtube)
4. Share the link with your audience and they can now watch you from anywhere in the world

AVPro edge impulse

LIVE STREAMING APPLICATION: BROADCAST AROUND THE WORLD

markets:

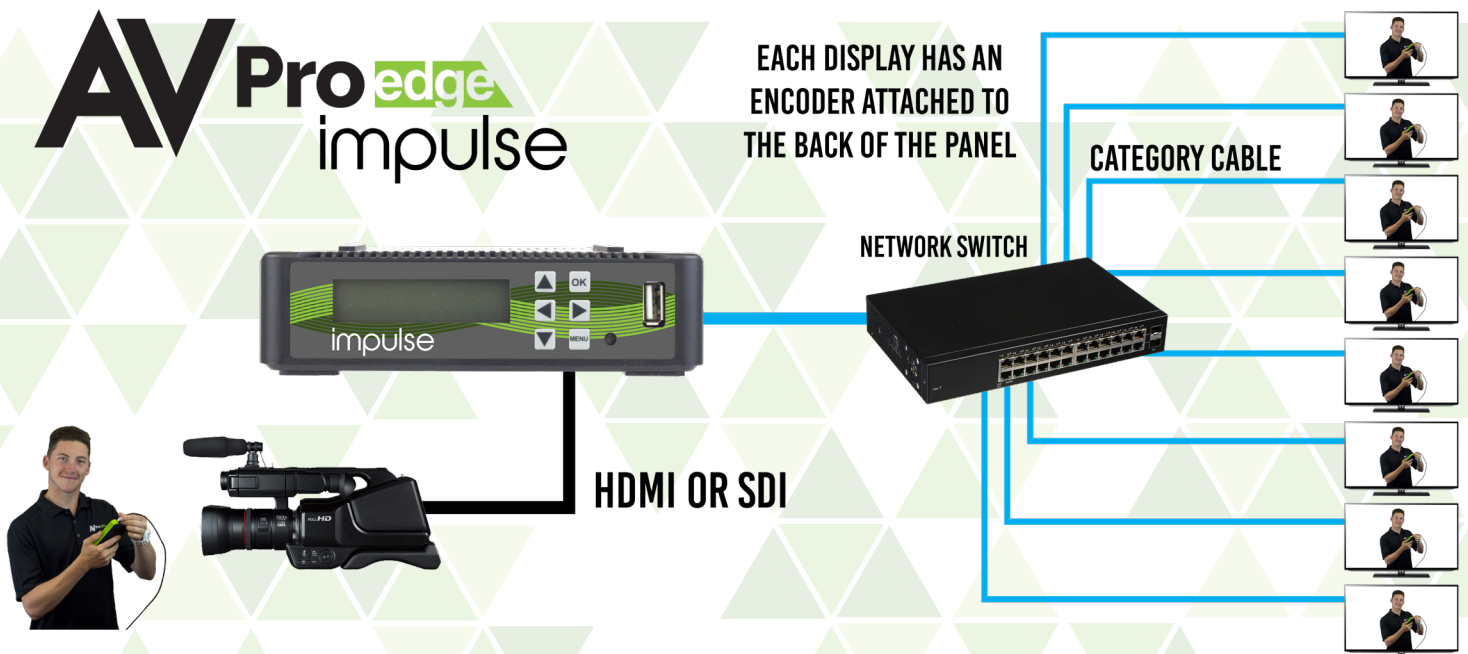

HOUSE OF WORSHIP: Every Church wants to broadcast their services to members of the congregation that are not able to make it in, this is the solution.

BARS AND RESTAURANTS: Streaming events or announcements to Facebook, Twitter, YouTube can gain a lot buzz around a business.

ORIGINAL CONTENT CREATORS: Millions of people watch YouTube and Twitch everyday. Every creator for these platforms would benefit from owning the Impulse

HOSPITALS: Impulse has the ability to share live procedures across the world, making it the perfect training tool for nurses and doctors.

SCHOOLS/UNIVERSITY: Being able to broadcast your lesson to the entire world via websites like Facebook, YouTube and Twitter give schools a closer connection to its student body.

LIVE STREAMING APPLICATION: BROADCAST TO A NETWORK FOR LARGE SCALE LIVE STREAMING LIKE ARENA'S, STADIUMS & LARGE CONFERENCE CENTERS
