

ZX4/ZX5

HDC-5
Protective Cover
for Zx4 or Zx5
Loudspeaker Systems

Key Features:

- Allows for Stacking
- Protects During Storage
- Rear Pocket for Model Identification
- Integrated Handle Opening

General Description:

HDC-5 is a heavy duty cover that fits the Zx5 and Zx4. Designed to protect the enclosure during storage, the HDC-5 has heavy duty padding on all sides. HDC-5 utilizes durable 1000D Black Cordura laminated to foam.

The HDC-5 has a built-in hard top so that one enclosure can be safely stacked on top of another. This is accomplished with a two-ply corrugated top structure with internal rubber protective feet.

The rear of the HDC-5 features a transparent vinyl pocket that accepts normal cardstock inserts to help identify model and/or serial numbers. This is especially helpful with Zx5 as it is available in different horn patterns.

The side of HDC-5 has a circular opening that gives access to the handle on the enclosure. This makes it easy to transport the enclosure with HDC-5 maintaining its protective capabilities.
