NTI keemux-p4-r 4-Port VGA PS/2 KVM Switch/Rackmount

This listing is for keemux-p4-r KVM Switcher only. Use description below as a general reference.

The KEEMUX® PS/2 KVM switch allows one keyboard, monitor and mouse to control multiple PCs (up to 128 computers). Dedicated internal microprocessors emulate keyboard and mouse presence to each attached PC 100% of the time so all computers boot error free.

Features

- Control all network computers from one office.
- Auto scan all computers to catch system failures early.
- Improve manageability of your computer room – eliminate extra cables, monitors, keyboards and mice.
- Compatible with IntelliMouse®.
- Broadcast keystrokes to all computers for simultaneous shut-downs.
- Cascade smaller KVM switches together as your network grows-up to 128 ports.
- Available with OSD and/or RS232 Control options.
    - OSD not available on 2-port switch.
