Current Audio AX-KPC 2.8 inch Touch Screen Control LCD Panel

The Axium KPC2.8 keypad is a programmable 2.8" colour LCD Touch screen. Being capable of learning and sending IR commands the KPC2.8 can be used as a standalone keypad to control virtually any IR controlled device.

When the KPC 2.8 is used with an Axium Multi-Zone Amplifier full 2-way feedback of source selection, power, mute & volume status is provided.

Full 2-way RS232 control is available on the KPC 2.8 when used with the Axium AX-R4 RS232 router and the prebuilt Axium applets.

Setup by the Axium Keypad Manager software, the KPC2.8 includes a host of features to simplify programming and enhance amplifier and source equipment control.
