AX-MINI4

Streaming Multi-Zone Amplifier

Evolutionary 4 zone amplification like no other.

4 powered zones expandable to 32 rooms, delivering 15 watts per speaker from 2 internal streaming sources or 2 external analog sources. Distributed audio like you have not heard before.

Endless Music

2 internal streaming decoders connect you to the content on your network, NAS or PC. You can play music stored on your mobile device via Wi-Fi and listen to internet radio stations via TuneIn (additional services pending).

2 analog inputs provide local audio input or a balanced audio input for remotely located audio components.

Unrivaled Control

The internal webpage has all the customization needed to configure your system the way you like it.

The FREE app auto discovers the amplifier so there is no complex setup. Just name the rooms and away you go.

2 keypad ports allow for wall mounted keypads to control your system.

IR repeating from the keypad ports and mobile device. IR commands can be configured by your CI for source control of 3rd party products.

Includes Remote Balan insert.

Audio Control

Adjustable bass, treble, balance and loudness put you in control and can be customized from the webpage. 600 Ms of adjustable digital delay keeps everything in sync.

Prepare to be spellbound in as many rooms as you want....
