

Soundsphere Q-6-BK 6.5-in Compact WEATHERPROOF Speaker/70Hz-17kHz/Black

The Q-6 is Soundsphere's most compact weatherproof loudspeaker, offering omnidirectional full-range music and clear voice announcements for both indoor and outdoor installations. Broad dispersion of all frequencies is achieved with a 6-1/2" coaxial driver and proprietary dispersion technologies. The Q-6 offers a hemispherical coverage pattern and can evenly cover a large area with fewer speakers. It comes fully assembled and ready to mount using our hanging kit or mounting bracket.

Onboard amplification is offered with Model Q-6 Power2, making a separate amplifier unnecessary in applications where only a single wide-dispersion speaker is required for coverage.

Features

- Fully weatherproof for year-round exposure to the elements
- Hemispherical coverage pattern
- Accurate, full-range voice announcements
- Enhanced high-fidelity music reproduction
- Fully assembled and ready to mount
- Hanging or surface mount
- Standard white (paintable) and custom colors available
- Available with onboard amplification (Model Q-6 Power2)
