

Phase Technology CI-SURRX 6.5in 2-Way In-Wall Switchable Surround Speaker

6.5" 2-Way In-Wall Surround Speaker (Switchable Bipole/Dipole & Mono/Stereo) With Micro-Flange Grille

The CI-Surround X is the clear choice for Bipole/Dipole surround speaker in a home theater system. It utilizes a dual voice coil woofer with two tweeters.

They can also be combined for two channels of input as a single stereo speaker. The weather resistant design makes it an excellent choice for bathrooms, hot tubs or outdoors.

Pre-construction bracket available.
