

Phase Technology CI520 5.25in Coax In-Ceiling Speaker w Metal Backcan

The CI520 speaker has an integrated steel backcan and ported design for enhanced bass response with its ¾" soft dome tweeter and 5.25" polypropylene woofer with butyl rubber surrounds. If 25/70.7/100V audio distribution is a preference, the CI520 comes with an integrated multi-tap transformer. All mounting hardware is included with each speaker and features Speedwing™ technology to ensure a fit in any drywall or drop-tile application. Tightening two screws locks the CI520 into place, creating an incredibly easy install. Incorporates a painted steel grille for lasted durability.

Features:

- One 5.25 inch polypropylene woofer with butyl rubber surround
- One .75 inch silk dome tweeter
- Limited Lifetime Warranty
- Auto-Reset Overload Protection
- Absolute Phase Crossover Network
- Painted White Steel Grille
