

# Phase Technology CS-6R 6.5in Coax In-Ceiling Speaker w Micro-flange Grille

## 6.5in Coax In-Ceiling Speaker w Micro-flange Grille

Phase Technology's CS Professional Series offers extended performance and power handling for in-ceiling or in-wall applications. Each model features extra-high sensitivity to assure satisfying volume, even with low-powered distribution systems.

These economy speakers feature outstanding audio quality and a micro- flange grille which only has ¼" of exposed flange along the edges.

**Sold as pair**
