

Phase Technology CI20X 6.5in 2-Way In-Wall w Flange/Grille/Baffle/48Hz-20kHz

6.5" 2-Way In-Wall Speaker With Micro-Flange Grille

The CI20 X offers a premium full-range speaker at a lower cost than comparable speakers. This versatile, high-performance in-wall speaker can be used in left, right, center, and surround applications.

A pivoting tweeter can be used to direct high frequencies to your listening area. The grille can be painted to match any room color.

Pre-construction bracket available.
