

Phase Technology CI620 6.5in Coax In-Ceiling Speaker w Metal Backcan

The CI620 speaker has an integrated steel backcan and ported design for enhanced bass response with its 1" soft dome tweeter and 6.5" polypropylene woofer with butyl rubber surrounds. If 25/70.7/100V audio distribution is a preference, the CI620 comes with an integrated multi-tap transformer. All mounting hardware is included with each speaker and features Speedwing™ technology to ensure a fit in any drywall or drop-tile application. Tightening two screws locks the CI620 into place, creating an incredibly easy install. Incorporates a painted steel grille for lasted durability.

Features:

- One 6.5 inch polypropylene woofer with butyl rubber surround
- One 1 inch silk dome tweeter
- Limited Lifetime Warranty
- Auto-Reset Overload Protection
- Absolute Phase Crossover Network
- Painted White Steel Grille
