

# Phase Technology DP2051 CB KIT dARTS 660 Series-Custom Box (5.1) Speaker Kit

*This listing is for DP2051 CB Speaker Kit (5.1) only. Use description below as a general reference.*

Custom-built 660 Series dARTS speakers have painted black enclosures suitable for placement in cabinets or behind perforated projection screens. Cabinets can be custom-built for uniquely-shaped mounting locations. Front speakers (left, center, right) incorporate a 1.125" soft dome tweeter and two 6.5" 3LC woofers; surrounds use two 1" soft dome tweeters and two 6.5" 3LC woofers in an angled front baffle. The system is complemented with an in-wall sub incorporating two 10" poly drivers with NBR surround. Custom Box systems can provide THX reference level SPL in a room measuring up to 18,000 cubic feet. Ask your dARTS integrator for assistance in determining the proper configuration for your theater.
