

Phase Technology DP2071 FS KIT dARTS 660 Series Freestanding (7.1) Speaker Kit

This listing is for DP2071 FS Speaker Kit (7.1) only. Use description below as a general reference.

The 660 Freestanding series uses sleek, hand-crafted, highly polished cabinets for the front speakers, center channel speaker and subwoofer. Surrounds are available in a custom box design with painted black finish. A single-sub configuration will provide THX reference level SPL in a room up to 5,000 cubic feet; larger configurations will cover up to 18,000 cubic feet. Ask your dARTS integrator for assistance in determining the proper configuration for your theater. Front speakers have a two-way design with a 1.125" soft dome tweeter and a 6.5" 3LC woofer in a tapered gloss black cabinet. The center speaker also has a tapered gloss black cabinet; it is designed to sit on a shelf underneath the TV or projection screen and has a 1.125" soft dome tweeter plus two 6.5" 3LC woofers. Surrounds each have two 1" soft dome tweeters and two 6.5" 3LC woofers in an angled cabinet. Subwoofers have either 12" or 15" poly/NBR drivers with passive radiator, and are housed in a gloss black cabinet.
