

# Datavideo GO-500 STUDIO 4 Channel HD/SD Portable Video Production Studio

Imagine if all your video production equipment fit inside one portable case. It would make transporting your equipment from one job to the next a lot easier. GO-500 STUDIO is an all in one kit that comes with a SE-500HD video switcher, TLM-102 dual monitor for preview and program, NVS-25 streaming encoder, and HDR-1 H.264 USB recorder all racked, connected, and packed in a rugged hard case. What more do you need other than some cameras, which is where the 2 Camera GoKit comes in. Pair these two GoKits together and you can have a completed video production workflow. Because of the portability of these GoKits, they are ideal for various applications such as worship, live events, seminars, school sporting events, and corporate presentations.
