

PureLink DOF4 Tx HDTools DVI over 4 Fiber Extender (Transmitter) Kit/Full HD

The **DOF4 Tx** is a modular extender transmitter offering reliable extension of uncompressed HD video and analog stereo audio to distances up to 5000 ft. (1,530 meters) over multimode fiber optic cable. The DOF4 Tx is part of PureLink's comprehensive line of HDTools™ fiber optic extension solutions and can be used for simple point-to-point applications, or in combination with HDTools™ distribution amplifiers and switchers to deliver a flexible, seamless solution for long distance signal transmission.

Features
