

# PureLink DTE Tx HDTTools DVI/RS-232/IR/POE over CATx Extender (Transmitter)/Ultra HD

*This listing is for DTE Tx Transmitter only. Use description below as a general reference.*

The **DTE Tx/Rx DVI over HDBaseT™ Tx/Rx Extender Kit with POE** provides extension of uncompressed Full-HD video from a DVI source, as well as control signals, over long distances using a single CATx cable. The DTE Tx/Rx offers bi-directional RS-232, IR, and Ethernet pass-through all on the same CATx cable, while maintaining EDID and HDCP communication between a source and display device. With support for resolutions up to 1920x1200, the DTE Tx/Rx can be easily integrated into existing Ethernet infrastructures and offers a seamless point-to-point signal extension solution.

## Features

- Extends Single-Link DVI up to 330 ft (100m) using a single CATx cable
- Supports PC resolutions up to 1920x1200
- Bi-directional RS-232 and IR
- POE support
- HDCP compliant, CEC, EDID transparent
- Based on HDBaseT™ technology
