INTRODUCTION

Congratulations on your purchase of the ex•tend•it PS/2 extender. Your complete satisfaction is very important to us.

Gefen's line of KVM (Keyboard Video & Mouse), ADC, DVI, USB, switches, extenders, converters and splitters is designed to make computer use more comfortable, more productive and less expensive. KVM switches allow access to multiple computers from a single keyboard, while the extenders give the user control over a computer up to 330 feet away from the work area. The ex•tend•it line offers solutions for noise, space and security concerns, data center control, information distribution, conference room presentation, and school and corporate training environments.

Our Commitment

Gefen will always offer the finest quality product at the best possible price. Included in that price is a lifetime of free support from a team of outstanding engineers.

The ex•tend•it PS/2 extender allows PS/2 keyboard and mouse ports to be extended up to 1000 feet using CAT-5 cables. The PS/2 extender send unit is connected directly to the computer with the supplied PS/2 cable. A CAT-5 cable is used to connect the PS/2 extender send unit to the PS/2 extender receive unit. The PS/2 extender keeps your desk clutter-free, allowing the relocation of your computer to a safe and secure area, while allowing you to work in a quieter environment
