

Gefen EXT-COMPOSITE-141N GEFEN AUDIO VIDEO EXTENDER UP TO 1000FT

Extends composite video and audio up to 1000 feet (300 meters) over one CAT-5 cable.

How it works

The Composite Video Extender sender unit connects to any component video source using the supplied Composite cable. The receiver unit connects to your composite video display up to 1.000 feet away. One CAT-5e cable is used to connect the sender to receiver for perfect video extension. The Composite Video Extender can extend either 3 composite video signals or 1 composite video signal plus 2 audio.
