

Gefen EXT-COMPAUD-141 Component with Analog/Digital Audio Extender (Transmitter/Receiver) Kit/Up to 330ft

Extends component video and audio up to 330 feet (100 meters) using one CAT-5e cable

Extend your audio and video signal using the Gefen Component Audio Extender. Place your source anywhere and extend the signal up to 330 feet (100 meters) away. The Component Audio Extender will extend Analog Component as well as Analog Audio and Digital Audio via SPDIF or TOSlink.

How it works

The Component Audio Extender sender unit connects to any component video and audio source using the supplied Component and RCA cables. The receiver unit connects to your HDTV component video display and audio input up to 330 feet (100 meters) away. One CAT-5e cable is used to connect the sender to receiver for perfect video extension up to 1080p. The sender and receiver will be powered individually by 5V power supplies.

Features:

- Supports up to 1080p component video
- Supports analog L+R audio
- Power only required only on transmitter
- Plug and play installation
- Equalizations for different CAT-5 skews
- One CAT-5 cable for extension
