

Gefen EXT-HDMI-142-BLK GEFEN HDMI SPLITTER

Distribute HDMI Video and Audio The HDMI™ Splitter allows set-top boxes, DVD players, D-VHS players and other HDTV devices with an HDMI™ output to be connected to two HDTV displays. Greater numbers of displays can be connected by chaining multiple splitters together to create a larger distribution. **How It Works** The HDMI™ Splitter is connected using a HDMI cable from the HDMI source to the HDMI splitter input. There are two HDMI outputs.

Note:

The HDMI Display connected to Output 1 is the Primary Display. A Secondary display connected to Output 2 must be able to show the same video resolution(s) as the Primary Display, or this display may fail to show a picture. Secondary displays follow the Primary by sharing the resolution and capability information (EDID) obtained from the Primary Display.

Features:

- Connects two HDMI™/DVI displays at the same time to the same video source
- Allows simultaneous display
- Maintains high resolution video - beautiful, sharp HDTV resolutions up to 1080p, 2k, and computer resolutions up to 1920 x 1200 are easily achieved
- HDMI™ compliant
- HDCP compliant

Specifications:

- Video Amplifier Bandwidth: 165 MHz
- Input Video Signal: 1.2 volts p-p
- Input DDC Signal: 5 volts p-p (TTL)
- Single Link Range: 1080P/1920 x 1200
- HDMI Connector: type A 19 pin female
- Power Consumption: 20 watts (max.)
- Power Supply 5V DC
- Dimensions: 10.25"W x 1"H x 4.25"D
- Shipping Weight: 4 lbs.

Package Includes:

- the HDMI Splitter
- One 5v Power Supply
- One 6ft cable
- User's Manual
