

Gefen EXT-HDMI-341 3x1 HDMI Switcher

Access up to Three Sources From One Display 3 Sources + 1 Display = Greater Integration Options

Gefen's 3x1 HDMI Switcher routes high definition video in multiple resolutions of up to 1080p plus multichannel digital audio from any of three sources. The inputs accommodate the simultaneous connection of up to three high definition video sources, such as satellite systems and Blu-Ray players. The output routes the high definition audio/video signals to a single HD display. Switching is done via the IR remote that is provided with the unit.

How It Works You simply connect all your sources to the Switcher's inputs. Then connect the display on the output port. Once the sources, the Switcher and the display(s) are powered and connected, you simply select which source you want to view using the included IR remote.
