

Gefen ADA-DP-MATE Gefen Female-Female coupler for DisplayPort Cables

ADA-DP-MATE

Connect your DisplayPort cables together with the Gefen DisplayPort Mate coupler solution

The Gefen DisplayPort Mate allows two separate DisplayPort cables to be connected together without losing the audio/video signal integrity. Increase the range of a DisplayPort monitor, or place a computer away from a DisplayPort monitor at a comfortable and convenient distance.

How It Works

Connect DisplayPort cables to each connector on the Gefen DisplayPort Mate. Doing this creates a longer and more flexible cable to make connections to DisplayPort equipment and/or DisplayPort displays more convenient. Gefen DisplayPort Mate joins two cables, transmitting the signal pin-to-pin.

Note: The Gefen DisplayPort Mate is a non-powered passive cable coupler.

Specifications:

- DisplayPort Connector Inputs/Outputs (2): 20-pin female
- Dimensions: 1.7" W x 0.7" H x 1.5" D
- Shipping Weight: 1lb.

Package Includes:

- (1) DisplayPort Mate
- (1) User's Manual
