

Gefen EXT-DPSB-100 Gefen DisplayPort Super Booster Cable EXT-DPSB-100

DisplayPort Super Booster Cable

Gefen DisplayPort Super Booster Cables: These copper cable-based solutions, come with a built-in integrated DisplayPort Super Booster at one end, and are available in lengths of 50, 75, and 100 feet.

Gefen DisplayPort Super Booster cables offer resolutions to 3840x2400@60Hz.

How They Work: Connect one end of this DisplayPort connector to the DisplayPort source. Connect the other end of the cable to the DisplayPort display. This plug and play installation takes just a few seconds.

A Note on Power:

Occasionally a video source will not supply enough power for the EXT-DPSB cable.

A universal power supply (Gefen Model No. EXT-PS51AIP) is included with each cable to prevent this from happening.
