

Gefen GTV-MB-CRSP GefenTV Conference Room Speaker Mounting Bracket

The GefenTV Mounting Bracket for Conference Room Speakers combines easy installation with quality, safety, and durability

The mounting bracket uses a high-quality metal threaded shaft which connects to the mounting receptacle at the rear of the speaker. The shaft is connected to a polymer ball joint inside the mounting bracket. This construction allows precise directional positioning of each speaker and unobstructed access to the speaker terminals. Screws are included to attach the mounting bracket to a wall or other flat surface.

Package Includes:

- (1) GTV-MB-CRSP mounting bracket kit
- (1) Set of mounting screws
- (1) Instruction Guide
