

# Gefen RMT-8HDS-IR IR Remote Control for Gefen HD/3G-SDI Converters/Scalers

## IR Remote Control for Gefen HD/3G-SDI Converter/Scaler Products

The Gefen EXT-RMT-8HDS-IR IR Remote Control allows effortless selection of sources to be displayed on connected displays when using HD/3G-SDI Converter/Scaler devices with up to 8 connected sources.

### How It Works

Simply point the EXT-RMT-8HDS-IR IR Remote Control at your Gefen Converter/Scaler unit from up to 30 feet away. Press the button corresponding to the desired source and the Gefen unit will display the selected source on your display. An LED indicator light confirms each keypress to show that IR commands are being sent to the Gefen unit.

**Note:** The EXT-RMT-3IR IR Remote Control and the Gefen unit to be controlled must be in a direct line of sight without objects between them in order to function properly and achieve the 30-foot maximum distance range of operation.

### Features:

- Compact, small and light unit fits in a pocket
- Controls your Gefen unit from up to 30 feet away (when used in line-of-sight orientation)

### Specifications:
