

Gefen WP-CAT5-2X-I Dual CAT5 Wallplate - Ivory

CAT5/5e Wall Plate -- Ivory

Gefen's economical and practical CAT5/CAT5e wall plates provide a convenient and ideal solution for terminating installations of CAT5/CAT5e cables within your building. They pass all analog and digital signals with perfect preservation of the original signal for networking and AV signal extension purposes.

The CAT5/CAT5e wall plate is made to fit into a standard US wall mount hole in an identical manner as AC outlets or light switches.

How It Works

Run your CAT5/5e cable in-wall from your source location to the destination. At the destination, create a wall mount hole for the new wall plate. Fish the extended CAT5/5e cable(s) through the opening and plug the RJ45 cable heads into the metal jacks on the rear of the wall plate. Install the wall plate into its mounting hole and tighten all screws. You'll now have a ready CAT5/CAT5e connection at the wall whenever you want it, enabling a neat and flexible installation.

Note: Gefen CAT5 wall plates can be used with all Gefen CAT5 extender products regardless of the type, even those which we normally advise not to use with wall plates. These special wall plates are designed to preserve continuity of signal and maintain signal robustness when used with Gefen CAT5-based extenders.

Features:

- Enables greater flexibility in digital video signal extension with CAT5 products
- Compatible with standard CAT5 and CAT5e cabling systems
- Metal plated electrical contacts for signal robustness
- Inexpensive, small and compact

Specifications:

- Cable standards supported: CAT5, CAT5e
- Connector Type: RJ45 sockets
- Wall Plate Dimensions: 4.5" W x 2.7"H x 1.2"D
- Voltage Rating: 125 VAC RMS
- Current Rating: 1.5 Amp
- Contact Resistance: 20 Milli Ohms Max
- Insulation Resistance: 1000 MegOhms min. @ 500 VDC
- Dielectric Strength: 1000 VAC RMS, 50 or 60 Hz for 1 Minute
- Connector Housing: ABS, UL94V-0, BLACK
- Terminal: Phosphor bronze plated with gold and tin in solder area
- Connector Shielding: Metal, 65y
- Durability: 750 Cycles Min.
- Shipping Weight: 1 lb

Package Includes:

- 1 x CAT5/CAT5e Wall Plate -- Ivory
- 2 x mounting screws
