The **UH-2C** extends HDMI™ audio/video to 200ft @ 1080i/720P or 150ft @ 1080p on 2 Cat6 cables. The UH-2C is compatible with HDMI™ versions 1.2a and 1.3. The remote receiver re-aligns the pixel clock and generates a clean pixel clock for the display, thereby taking out any skew that may have been induced in the cable. The Re-clocking feature of the UH-2C allows the units to be daisy-chained together to extend the video and audio even further.
