

## **Kramer FC-21ETH 1-port Serial Control Gateway**

The FC-21ETH is an Ethernet control gateway, capable of plug and play deployment over customer Ethernet LAN for remote control of customer controlled devices via bidirectional RS-232 or RS-485 serial control connections. Multiple control clients can be IP-connected to the FC-22ETH control gateway for concurrent control of one RS-232 or RS-485 controllable device, such as an AV scaler, video display, and audio amplifier.

### **Features**

- 1 RS-485 or RS-232 Selectable Bidirectional Control Port — Controls a device via bi-directional serial control protocols.
- 1 Ethernet Control Port — Remote protocol-based control port.
- Built-in Web Pages — Remote browser-based control and support.
- Simultaneous IP Control Communication — With up to 40 IP control clients.
- Mini USB Port — For firmware upgrades and local technical services.
- Easy Installation — Plug & play IP auto-setup deployment for simple and cost-reducing installation.
