

WyreStorm RXF-300-4K 18Gbps HDMI over MultiMode Fiber Extender (Receiver)

18Gbps HDMI-Over-MultiMode Fiber Receiver (2160p 4:4:4/60: 300m/984ft | 1080p: 300m/984ft)

Fiber transmission has long been the holy grail of sending high bandwidth data over long distances but its cost and demanding termination & installation criteria have put many people off. Now with the H2X matrix platform offering perfect lossless transmission of 2160p 4:4:4/60 content over distances of nearly 1000ft, it's the perfect time to embrace optical transmission and let there be light!

Features:

- Receives 18Gbps HDMI transmissions using multimode fiber up to 300m/984ft
- Compatible with the latest HDR-10 content and 4K/60 4:4:4
- HDCP 2.2 compliant
- Passes IR or RS-232 control signals bidirectionally
- Perfect for long distance transmission in environments with high-levels of EM or RF interference
