

WyreStorm RXV-70-4K 18Gbps HDMI-Over-HDBaseT Extender (Receiver)

18Gbps HDMI-Over-HDBaseT™ Receiver (2160p 4:4:4/60: 70m/230ft | 1080p: 100m/328ft)

Consumer HDMI content is now breaking through the once comfortable HDBaseT “ceiling” of 10Gbps, with HFR (High Frame Rate) HDR here already in the form of Blu-Ray, Satellite & Cable (HLG) and gaming content. WyreStorm’s H2X matrix platform is ready for this with our new light-compression transmission solution. This receiver is the perfect match for the TX-H2X-VLC modular card.

Features:

- Receives 18Gbps HDMI transmissions using HDBaseT up to 70m/230ft
- Compatible with the latest HDR-10 content and 4K/60 4:4:4
- Revised chipset increases compatibility with new UHD sources
- Supports video, audio, bidirectional IR/RS-232, power and Ethernet
- 2-way PoH for maximum flexibility during installation
- HDCP 2.2 compliant
