

1U Rack Tray EXT-RACK-1U EXT-RACK-1U-GRY

Congratulations on your purchase of the Gefen 1U Rack Tray. Your complete satisfaction is very important to us.

This product has been designed for rack mounting of specific half-rack wide Gefen products. It helps keep your installation secure and organized. This tray takes up just 1 Rack Unit (1U) height (1.75"), but can also accommodate lower profile as well as taller enclosures (as long as there is clearance above the tray). For a list of compatible Gefen products, please see the EXT-RACK-1U page at www.gefen.com

Installation

Remove Rubber Feet

1

Make sure you have everything that came with your product:

- (1) 1U Rack Tray (EXT-RACK-1U or EXT-RACK-1U-GRY)
- (1) Quick-Start Guide (QSG-EXT-RACK-1U)

Please note the following:

1. Product-to-rack mounting screws are not provided with this rack tray. If these screws did not come with your Gefen product, you will need to purchase them separately. Please use 6-32 flat head machine screws, approximately 3/16" or 5mm long. The use of longer screws could damage your product. Such damage will not be covered under warranty.
2. This rack tray is available in two finishes to complement a variety of Gefen enclosures: Bronza (EXT-RACK-1U) and Metallic Gray (EXT-RACK-1U-GRY).

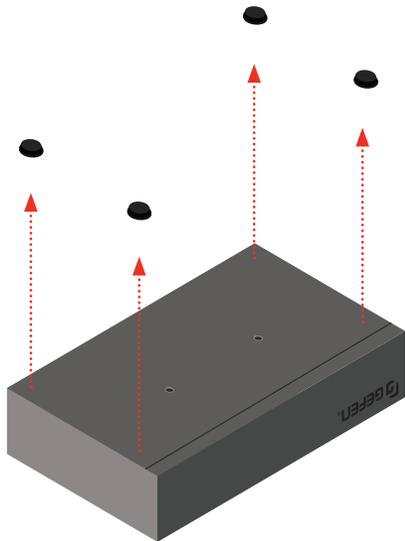

In case of difficulties, or if you have any questions, please get in touch with the Gefen Technical Support. Refer to the last page of this Quick Start Guide for contact information.

INFORMATION:

For a list of compatible products, please see the EXT-RACK-1U web page at www.gefen.com

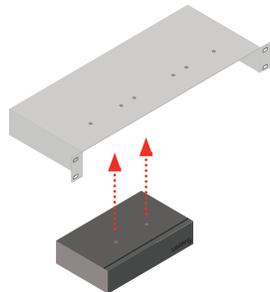

1. Turn the unit upside down and remove the rubber feet if attached.

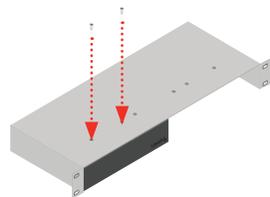

Secure product to the Rack Tray

2

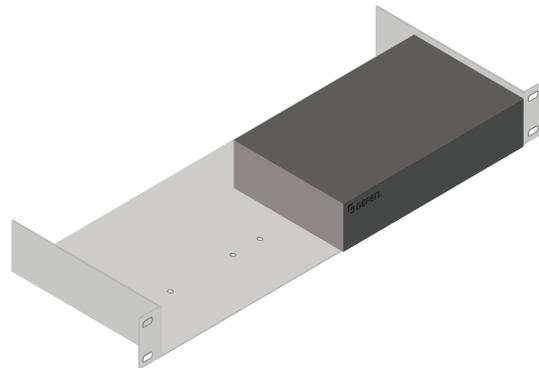

2. Line up the holes on the unit and the rack tray.

3. Install the two machine screws that are either provided with the product or need to be purchased separately.

4. Ensure that unit has been installed securely in the rack tray.
