

Electro-Voice WTU2G RE2 PRO Series Wireless Bodypack Transmitter Only G-Band (614-642 MHz/no Rx/no Microphone)

RE2 PRO Series Wireless Bodypack Transmitter Only G-Band (614-642 MHz, no Rx, no Microphone)

The WTU-2 from Electro Voice is a high-quality wireless bodypack transmitter. The transmitter has a durable cast magnesium metal housing to give it a long lifespan. The unit features a detachable antenna, and it has a selectable RF output of 5 or 50mW. The unit operates for up to 8 hours on two AA batteries. An integrated LED screen displays group/channel, frequency, and battery level information. The TA4M connector provides wide compatibility with a variety of mics and headsets.
