

Aurora Multimedia ORC-1C-W HDMI/VGA/Audio HDBaseT Extender Kit with Control/White

One Room - One Cable Kits make specifying, ordering, deploying and installing easy, organized and streamlined. Each kit is based around Aurora's award winning **DXW Series** wall plates. **ORC-1** ships complete with the **DXW-2** Wall Plate/Switcher featuring HDMI and VGA inputs with auto switching, **DXE-CAT-RX3C-A** HDBaseT Receiver with dual relays for screen control and 2x35W amplifier and Web Control, two **SKR-22T** 2'x2' Ceiling Tile speakers and the **DXB-8** 8-button controller keypad. The DXB-8 control keypad comes preprogrammed for controlling the DXW-2 and DXE-CAT-RX3 Audio. Only thing the user needs to do is drop in Display ON/OFF commands. It's that easy!

All of these **One Room – One Cable™** kits ship in a single box making deployment as easy as possible. Perfect for Classrooms, Conference Rooms and other single room AV applications.
