

# Electro-Voice HTU2C410G RE2 Series Wireless Condenser Cardioid Handheld RE410 Transmitter Only G-Band (614-642 MHz)

RE2 Series Wireless Condenser Cardioid Handheld Transmitter Only G-Band (614-642 MHz, No Rx, RE410 element)

## Features

- RE 410 Condenser
- Internal 1/2 wave antenna

## Benefits:

- Fits the vocalist's style and environment
- Classic dynamic sound and performance in applications ranging from rock and roll to spoken word
- Low handling noise, crisp condenser sound and off mic performance. Perfect for schools, houses of worship and any other multitasking application.
- Excellent sound and gain-before-feedback for high SPL stages
- Excellent range; stays out of harm's way
