

Xtend 4K Throughout the Home.

UPGRADE YOUR ENTIRE HOME TO 4K

DVDO Xtend

DVDO XtendPRO

Enhance HDMI Audio and Video up to 100Meters at up to a 4K resolution using HDBaseT technology

DVDO Xtend takes your HD and 4K experience to extreme distances by enabling seamless extension of HDMI connections over Cat5e/6 cables. Utilize existing Ethernet cabling to Xtend HDMI throughout the house. With HDBaseT technology, DVDO Xtend can provide stable and reliable HDMI connections up to 100 meters.

- Xtend HDMI up to 100 meters (70 meters for standard version)
- Deliver up to 4K with HD audio
- HDMI cable-quality reliability
- Passes remote control signals back to the source
- XtendPRO version carries PoE and Ethernet LAN

Xtend 4K throughout the Home

All the reliability of an HDMI cable using existing Ethernet Cat5e or Cat6.

Free From Interference

Unlike whole-home wireless solutions, Xtend provides a reliable, frustration-free connection.

Easy to Install

DVDO Xtend is plug-n-play, installs quickly and easily.

A Proven Technology

Based on HDBaseT technology already in millions of installations, DVDO Xtend takes it to the next level with unsurpassed reliability, range, and features.
