

AVPro Edge AC-MX9XHDL-UHD 4K Cloud 9 High Definition Loop Mass Media Matrix

4K Cloud 9: High Definition Loop Mass Media Matrix

Features:

- Fully uncompressed video
- Instant Matrix Switching w/ AIMS Technology
- 9-Source, Unlimited Outputs
- Robust HDBaseT Technology
- Matrixable Quad View (Matrix each quadrant independently)
- 9-Source Multiview
- Dynamic Video Walls with PC software or Control System
- Dual Color LCD Screens for Setup
- Instantly jump from Multiview/Quadview to Single image
- IR, RS-232, or Ethernet Control
- IR, RS-232 Pass through to Displays/Projectors
- Advanced RS-232 Routing to single outputs
- 4 port IR Matrix
- Free PC Control Software (Serial)
- Web Interface for control and setup
- FPGA Based hardware
- HDBaseT Lossless Video Transport
- Instant, seamless switching of sources and into and out of Multiview mode (Or Video Wall Mode)
- Digital (Coax) audio extraction with 3 operational modes. Fixed to Inputs, Follows Outputs, and Independent Matrix.
- HDMI Audio Selection/Matrix in Quad View & 9 screen Multiview
