AVPro Edge AC-EX150VW-C9-R Video Wall 150m HDBaseT Extender (Receiver) for the Cloud 9

The AC-EX150VW-C9R can extend an uncompressed 1080p video signal up to 150 meters over a single CAT-5e/6a/7 UTP/STP. In addition, the The AC-EX150VW-C9R will allow you to build a custom video wall layout up to 3x3. Adding one to each of the displays in the video wall will give you ultimate flexibility on your project. Installation is simple! The AC-EX150VW-C9R is powered via POE, so no worries about where to plug it in for power. Only 2 connections need to be made; the Category cable as an input and a short HDMI cable from the output to the display. Because of its slim design, the AC-EX70-UHR-TR can me mounted virtually anywhere!
