

Atlona AT-VID18 1x8 Composite Video Distribution Amplifier

Atlona 1x8 Composite Video Distribution Amplifier. Model: AT-VID18

The Atlona AT-VID18 is one of the most innovative Composite Video signal distribution amplifiers on the market today. This 1x8 Composite Video Distribution Amplifier is the perfect solution for anyone who needs to send one source of high quality composite video to multiple displays at the same time. With 1 Composite Video Input and 8 Composite Video Outputs, the AT-VID18 is capable of sending signal from one source to all 8 desired displays at the same time at lengths up to 200ft without signal degradation. This unit is perfect for applications for distributing signals from VCRs, Camcorders, Video Game Consoles, DVDs, Satellite Receivers, Set Top Boxes, etc.

Key Features:

- Sends High Quality Video Signal to 8 displays at the same time
- Allows cascading up to 24 units
- Built In Amplifier for boosting signal without signal loss or signal degradation
- Extremely high video bandwidth
- Outputs are fully isolated which will prevent double image or artifacts
- Desktop Size - Compact size, 1U. Two units can be placed on rack shelf side-by-side in a 1U rack
- Quick and easy installation

Technical Specifications:

- Input: 1 x Composite Video, 75 Ohm (RCA connector)
- Outputs: 8 x Composite Video, 75 Ohm (RCA connector)
- Supported Signals: Composite Video
- Desktop Size - Compact size, 1U. Two units can be placed on rack shelf side-by-side in a 1U rack
- Power Consumed: 300mA Maximum
- Power Source: DC 12 Volts (110/240V universal)
- Size (L,W,H): 6.8" x 3.1" x 0.9"
- Net Weight (Unit only): 1.0LB

Package Includes:

- AT-VID18 Distribution Amplifier x 1
- 6ft Composite Video Cables x 1
- Instruction Manual x1
- Universal AC Power Adapter: 12VDC, (110-240V) x 1

Warranty:

3 year manufacture warranty (parts & labor)
