

Kramer RR-AN-35 RapidRun Analog Multi-Format Runner Cable 35ft

RapidRun® is designed to be the standard for in-wall audio/video installations. Using pre-terminated break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high-quality connections for all types of equipment, with no field terminations.

RapidRun Multi-Format represents the most significant upgrade to the RapidRun cabling solution to date. With enhanced engineering that includes individually shielded pairs and an isolated ground for audio lines, this runner cable meets the rigorous demand for applications in which multiple audio/video devices are run over a single cable.

Use this CMG-rated Multi-Format runner for in-wall installations that support high density, multiformat applications. Whether hanging a projector in a modern 21st century classroom or installing a commercial digital signage system, a clean, crisp signal is delivered every time.

Note: Each complete RapidRun Multi-Format runner solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires two break-away flying leads, two wall plates, or one break-away flying lead and one wall plate.

- Color Code - Orange (analog).
- RapidRun Connectors - 2 custom RR 15-pin (F), diameter 16mm.
- Installation Requirements - Requires multiformat (orange) wall plates and/or break-away flying leads at each end.
- CMG-Rated for In-Wall Installations.
- Unique Protective Pulling Cap - Withstands 30 pounds of tension, allowing the cable to pull easily through walls and existing conduit.
- Varied Selection of Lengths

Model	Description	Length
RR-AN-6	60000: RapidRun® Multi-Format Runner Cable	6'
RR-AN-10	60001: RapidRun® Multi-Format Runner Cable	10'
