

## Kramer RRP-AN-35 RapidRun Plenum-Rated Analog Multi-Format Runner Cable 35ft

RapidRun® is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high-quality connections for all types of equipment, with no field terminations.

RapidRun Multi-Format represents the most significant upgrade to the RapidRun cabling solution to date. With enhanced engineering that includes individually shielded pairs and an isolated ground for audio lines, this runner cable meets the rigorous demand for applications in which multiple audio/video devices are run over a single cable.

Use this plenum-rated multiformat runner for in-wall installations that support high-density, multiformat applications. Whether hanging a projector in a modern 21st century classroom or installing a commercial digital signage system, a clean, crisp signal will be delivered every time.

Note: Each complete RapidRun Multi-Format runner solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires two break-away flying leads, two wall plates, or one break-away flying lead and one wall plate.

- Color Code - Orange (analog).
- RapidRun Connectors - 2 custom RR 15-pin (F).
- Requirements - Requires multiformat (orange) wall plates and/or break-away flying leads at each end.
- Rating - CMP-rated for installations in plenum spaces.
- Unique Protective Pulling Cap - Withstands 30 pounds of tension, allowing cable to pull easily through walls and existing conduits.
- Varied Selection of Lengths - Available in versions of 15, 25, 35, 50, 75, 100 125 & 150ft (4.6 to 45.7m).
