

# Shinybow SB-6110TR Transmitter + Receiver VGA Extender

## Shinybow VGA/AUDIO TRANSMITTER and Receiver Combination Kit. Model: SB-6110 + SB-6110R

A compact transmitter and receiver combination kit for sending VGA and stereo audio signals over long distances (up to 1000ft).

### Features:

- Easy to install and highly reliable (commercial grade product)
- Supports High Resolutions up to 1920x1200
- Supports multiple video formats though VGA ( RGBHV, RGB, YPrPb, YUV )
- Supports stereo audio though 3.5mm mini jack
- Long Distance Extension:
  1. 200ft for 1920x1200
  2. 350ft for 1280x1024
  3. 450ft for 1024x768
  4. 600ft for 800x600
  5. 1000ft for 640x480
- Supports HDTV Resolutions: up to 1080p

### Technical Specifications:

- Transmitter Inputs 1 x HD15 (VGA) and 1 x 3.5mm jack (stereo audio)
- Transmitter Output RJ-45 (Cat5/6)
- Receiver Input: RJ-45 (Cat5/6)
- Receiver Output: 1 x HD15 (VGA) and 1 x 3.5mm jack (stereo audio)
- Brushed aluminum case with mounting brackets
- LED power ON indicator
- Resolutions support up to 1920x1200 or 1080p
- Video Bandwidth: 450Mhz (small signal bandwidth), 225Mhz (large signal bandwidth)
- Output Balance Error : -60dB @ 50MHz
- High isolation: 80dB @ 10 Mhz
- Power Supply: DC 12V / 300mA
- Dimensions: 2.6 x 2.75 x 1-(inch) each
- 1.1LB each
