

Shinybow SB-6130TR Componetn Video Transmitter and Receiver

Shinybow Component Video TRANSMITTER and Receiver Combination Kit. Model: SB-6130 + SB-6130R

A compact transmitter and receiver combination kit for sending Component Video signals over long distances (up to 1000ft).

Features:

- Easy to install and highly reliable (commercial grade product)
- Supports High Resolutions: 480p, 576p, 720p, 1080i and 1080p
- Supports multiple video formats: YPrPb, YCrCb, YUV
- Brightness and Tint adjustments
- Long Distance Extension:
 1. 200ft for 1080p
 2. 350ft for 1080i
 3. 450ft for 720p
 4. 600ft for 576p
 5. 1000ft for 480p

Technical Specifications:

- Transmitter Inputs Component Video (3-RCA)
- Transmitter Output RJ-45 (Cat5/6)
- Receiver Input: RJ-45 (Cat5/6)
- Receiver Output: Component Video (3-RCA)
- Brushed aluminum case with mounting brackets
- LED power ON indicator
- Resolutions support up to 1080p
- Video Bandwidth: 450Mhz (small signal bandwidth), 225Mhz (large signal bandwidth)
- Output Balance Error : -60dB @ 50MHz
- High isolation: 80dB @ 10 Mhz
- Power Supply: DC 12V / 300mA
- Dimensions: 2.6 x 2.75 x 1-(inch) each
- 1.1LB each
