

## **Atlona AT-HDMI50SR ATLONA HDMI over cat5 EXTENDER UP TO 150FT**

### **Atlona HDMI Extender over Cat5 up to 165ft (50m). Model: AT-HDMI50SR**

The Atlona AT-HDMI50SR is a great solution for extending HDMI signal over Cat5 cables up to 165ft without signal degradation. The Atlona HDMI Extenders can handle any resolution up to 1080p. The installation of the Atlona HDMI Over CAT5 is quick and easy, simply place Sender unit next to your HDTV source such as a DVD player, place the Receiver unit next to your display, then connect 2 x Cat5 cables and you are done. The signal will be sent with perfect video quality.

**Note:** Atlona AT-HDMI50SR is based on the Analog Devices Chip-Set. This is the best rated chip-set for extending HDMI over cat5/cat6 applications that require reliable sync and constant signal.
